Trial of the Quo Warranto Brought by Omaha's Ex-Mayor.

REFEREE BEGINS HEARING THE TEST MONY

Opening Statements of the Attorneys Give a Clear Idea of the Situation_Mr. Wharton Shows the Defense's Strength.

The action known as the case of the State ex rel W. J. Broatch against Frank Mooren was called for hearing in room No. 3 in the court house yesterday morning, Referee E. J. Clements of Ord, who was appointed by the supreme court to take testimony, submit findings of fact and conclusions of law,

Moores to serve as mayor of the city of Omaha, a position to which he was elected last spring, defeating E. E. Howell, the democratic candidate. Broatch contends that Moores fraudulently, maliciously and wickedly holds the office of mayor of the city of Omaha for the reason that while clerk of the district court he wickedly and maliclouely retained and held the sum of \$1, \$18.93 in fines received by him as such clerk and not paid into the treasury of the Board of Education. Moores admits having had the \$1.818.93 in his possession as such clerk, but did not know the fact until May 9, 1897, when he paid the money to the proper par-

For Mayor Moores Attorney John C. Wher ton said that every act of Frank E. Moores showed that he had been an honest custodian of public funds as clerk of the district cour of Douglas county. "Notwithstanding this," argued Mr. Wharton, "Broatch and the at rney representing him went into court and their petition swore that he collected and fraudulently retained money that belonged to

"I am not so sure of the sincerity of these people," continued Mr. Wharton, "This charge was brought just prior to last spring's election, and, I believe, for the sole purpose of influencing the minds of the voters against the republican candidate. They claim that Moores wickedly held in his possession cer-tain witness fees, but we can and orcouse 19 show that years ago Mr. Moores took advice upon this matter, and upon such advice he refused to turn into the school treasury these fees. He was advised that if he allowed these fees to pass out of his hands the owners could call at any time and collect the amounts from bim and his bondsmen.

"They say that Mr. Moorse quid into the school 'teasury the sum of \$1,818.93 in flues collected by him and that the sum of \$240 cemains unaccounted for. They say that this \$240 he retained maliciously and frauduly. All of the testimony, however, will that these people who are bringing this suit did not discover this \$240 until a short time ago, long after they brought this action parties who are prosecuting Frank E. Moores had an expert on his books for months. He was their man Friday, and was ready to jump at their beck and call, Frank E. "The evidence will show that during his term of office as clerk of the district court, Frank E. Moores collected and paid over surd. These men would brand this man as a thief, simply for the reason that they \$2,000 before he knew that he owed it. The proof will show that the county owed Moores \$30,000, \$20,500 of which has been allowed and paid, but not until the books had been examined and checked by men who are his sworn enemies. The prosecu-tion in this suit was very diligent in bringing this action just before the election a which Moores was a candidate, and, as I have said before, it was for the purpose of defeating him at the polls and throwing the votes to another man.

"We will show that when the balance sheet was made, by which it was indicated that Moores owed \$1.818.93 in fines, he was out of the city. I asked for twenty-four hours of time, stating to the attorney that after an examination, if it was found cor-rect, the money would be paid. The sheet was turned over to A. Steere, Mr. Moores chief clerk, who, after checking it, reported to me that he thought it was correct. After receiving a reply from Mr. Steere that the amount was correct the money was paid.

WHEN PAYMENT WAS MADE. "These people say that Moores owes other money, but they do not specify. If he has money in his hands that belongs to the county, city or others why do they not specify that we may know what to answer' Let me say right here that I think that it is bad taste for these people to be here in court prosecuting Frank E. dollars in fees and costs.' The first witness was Charles White. He testified that on February 8, 1888, after haying been convicted of gambling, he was fined \$100, which he paid. He also testified that at the same time Buck Copeland and — Cook were convicted of the same crime, the former being fined \$100 and the latter \$150. These fines, White said, he paid, but to whom he could not say, though he was certain that he paid the money to some person in the office of the clerk of the district court The receipt on the docket showed that the

The receipt on the docket showed that the money was paid to V. M. Mackay, who was a clerk in the office at that time, but who has since died. It is contended by the prosecution that the money in this case was never paid into the treasury.

showing moneys paid and disbursed. AFTERNOON SESSION. At yesterday afternoon's session Albyn Frank, clerk of the district court, was called as a witness. He testified that when he succeeded Moores in office Moores did not pay over to him any fines, though there were ome checks and certificates of deposits de-vered. On cross-examination the witness testified that some money was paid to him by Moores, but how much he could not re-member. The certificates of deposit, he thought, aggregated about \$14,590, but to be correct he insisted that he would have to examine his books. There were also some checks and drafts turned over by Moores, but the aggregate amount Frank would not testify to. Of the money turned over when he surrendered the office to Frank, Moores

contends that there was \$25.097.69.

The two hours following the introduction of the testimony of Frank was devoted to the introduction iof records and documents showing the receipts and disbursements dur-

ing Moores' eight years as clerk.

James Ruane was called just before the evening adjournment and testified that for a number of years he had been employed by the county as a bookkeeper and expert accountant, checking over the accounts of the various offices. RESIGNS FROM THE LIBRARY BOARD

William Wallace Disapproves of the Levy Made for that Institution. The resignation of William Wallace as a number of the Public Library board was eceived by Mayor Moores yesterday morning. Mr. Wallace tendered his resignation on count of the refusal of the city council o levy the amount asked for by the board, although the cause is not mentioned in his

etter to the mayor. Mayor Moores says that he will make an effort to induce Mr. Wallace to reconsider his action, as he is altogether too valuable a man to lose. The mayor is inclined to agree with Mr. Wallace that the levy for the library board is insufficient and no hopes that an arrangement may be made that will be more satisfactory. In this connection the mayor states that

hile he has not absolutely determined on is action with regard to the levy ordinance passed last night, he is inclined to think that he will veto it. He takes the position that in one or two cases the council carried economy to an extreme, and that it would be wiser to add 1 mill to the levy and livide it between the library and street leaning funds.

"I am as much in favor of economy." said the mayor, "as any member of the coun-cil, but I believe that there is a false econ-omy that costs more in the end than a well advised expenditure. I am particularly of the opinion that the sum provided by the council for street cleaning and repairs will not be sufficient to keep the streets in presentable condition during the exposition. There is a fight on between Caterer Joe Senbaum of the city jall and Mine Host Mc-Donald of the county bastile which may ultinew city jail.

For about a formight past complaints have any chemical or physical source, but only been regularly registered with Mayor Moores in antecedent life and remotely from creaand Chief Gallagher by Sheriff McDonald and his deputies that the county jail has not been receiving its share of prisoners from Judge Gordon's court. It has been alleged that in certain cases where prisoners have been bound over to the district court that tainty. In order to even matters somewhat Judge Gordon has sent a large number of city prisoners, who were serving from ten to thirty days' sentences, to the county jail. As a result of this Danbaum finds his boarding house nearly depleted. He looked up his contract with the city, and finally made a formal demand of Judge Gordon, in the presence of witnesses, that the custom of sending the city prisoners to the county jail be discontinued. Caterer the custom of sending the city prisoners to the county jail be discontinued. Caterer Danhaum took his stand upon the condi-tions imposed in the coutract, which specify that "he shall feed all prisoners confined in the city jail serving sentences for misdemeanors for violating the city ordinances." Danhaum asserts that from two to eight prisoners who should right. to to eight prisoners who should rightully serve their sentences in working for he city in the street cleaning gang. are being sent daily to the county jail. He asserts, moreover, that the city is paying him 1214 cents per meal for either two or three meals served per day, while Sheriff McDonald is receiving 17½ cents for the same thing. It is also stated that only the meals served in the city jail are charged, while a full day's rations is charged up in the county jail for a pris-oner who comes in only for supper.

Judge Gordon said he would take the mat-er under advisement and render his decision later. He said that in sending the pris-oners to the county jail he had acted oursly on humane principles, as he did not consider the present city jail a fit place to imprison any one. Caterer Danbaum will await Judge Gordon's onswer and in case it is un-favorable to will take legal action in order to compel the city to perform its portion of

Let us not lose sight of this. Some toward the rising sun already think we dwell just a little beyond "God's country." As a mere matter of business t might be well to correct the false impressions which are current concerning us But there are some things that are more important than business. Home, Sabbath, for example. Rev. Mr. Mann, as you say, takes a broad view of the Sabbath question. I grant the Broad enough nearly relief I grant it. Broad enough not only for a skeptic or infidel, but broad enough for any rogue or rascal. There may apparently be some reasons for disregarding the Sabbath during the exposition; but why should any one use this as an opportunity to set the Sabbath aside entirely and to teach that Christ "simply ignored it?" No one ever employed the Sabbath more faithfully than ur Lord, and no one was ever so fearless in correcting the errors which obtained upon the Sabbath question. But the man who rests his hope in "cupidity" for the establishment of his purposes can hardly find an endorsement of his ideas from the life of Christ. Rev. Mr. Mann, should he read the bible, might discover that it contained a moral as well as a ceremonial law. PETER SWAN. Appeals to Omaha Cyclists.

OMAHA, Feb. 2.—To the Editor of The Bee: The idea of constructing a central houlevard in the city of Omaha has taken form in an earnest way. There hardly can be anyone in this city who doubts the convenience, usefulness and grandeur of such a thoroughfare. Sympathy and hearty support of all our officials—mayor, park board, county commissioners and a number of our city fathers who are acquainted with this project—is certain. While at the present time there are men working very hard to verify this idea, would it not be opportune for the wheeling community to commence to agitate and devise plans by which money could be raised for a cycle path along this Appeals to Omaha Cyclists. to agitate and devise plans by which money could be raised for a cycle path along this projected boulevard? > A stovepipe in Stewart's cigar store on Railroad avenue, just south of the Delmon-ico hotel, fell down last evening, filling the place with smoke. Someone turned in a fire alarm and the department made the run. We are anxious to do a little good in this

world and can think of no pleasanter or better way to do it then by commending One Minute Cough Cure as a preventative of pneumonia, consumption and other serious lung troubles that follow neglected colds. Turley is Elected Senator.

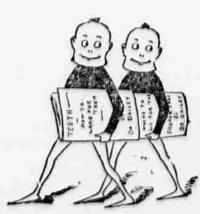

NASHVILLE, Tenn., Feb. 2.—Thomas B. Turley was today elected. United States senator by the legislature. The senate and house met in joint convention for that purpose, Mr. Turley (dem.), received ninety-one-votes. The republicans voted for Hon. J. W. Baker of Nashville.

plane has reached international propertions, notwithstanding the brief period since its introduction on the market, cannot be accounted for on the ground of economic production, nor its popularity explained simply by the fact that it entered the ranks of competition with the powerful advantage of lower prices to the public-The strength of the Kimball plano does not rest upon its price but upon its merits as a distinctly artistle creation-The newest productions of this piano are now on display at our show rooms.
